mihaicristianfarcas@gmail.commihaicristian.devgithub.com/mihaicristianfarcaslinkedin.com/in/mihai-cristian-farcas-6660542a6

Date of birth 5 April 2004 | Nationality Romanian

WORK EXPERIENCE

2026 – Present

Software Engineer (Freelance), BluePlan

Built and shipped Atlas (ai.blueplan.ro) end to end: retrieval-augmented chat over technical documents with hybrid dense, sparse and image retrieval fused with RRF, reranking and verbatim citations pinned to the source PDF. Multi-tenant, multilingual and in daily production use.

Technologies Python, FastAPI, Qdrant, React

2026

Full-Stack Developer, Baseline Studios

Delivered full-stack features across multiple client applications (stratosphere.vip, pursuitofx.org, kabu.xyz) using TypeScript and React.

2025

Software Developer, GeoDraw

Developed an AI-powered canvas for sketching and wireframing apps with React, TLDraw and LLM APIs, turning natural language into accurate real-time design output on the canvas.

April – June 2025

Software Development Intern, Tvarita

Rebuilt and redesigned a server monitoring site for an optician clinic chain using React and Tailwind CSS, improving the user experience and significantly reducing load times.

EDUCATION AND TRAINING

Oct 2023 – June 2026

BSc in Computer Science (English)

Babeș-Bolyai University, Faculty of Mathematics and Computer Science, Cluj-Napoca, Romania

Thesis: Hybrid post-quantum key exchange for WireGuard, the first FIPS 203-compliant hybrid WireGuard implementation on a production Rust codebase.

PERSONAL PROJECTS

2026

pq-boringtun

Hybrid post-quantum key exchange for WireGuard: ML-KEM-768 alongside X25519 in the Noise IK handshake, built in Rust on Cloudflare's BoringTun and benchmarked on Apple M4 and Raspberry Pi 5.

github.com/mihaicristianfarcas/pq-boringtun

2026

Supernova

Live-wallpaper engine for macOS in Swift 6: renders looping video, Shadertoy-style GLSL shaders transpiled to Metal and sandboxed web bundles behind desktop icons, with audio, cursor and motion reactivity, per-display assignment and smart playlists.

supernova-macos.vercel.app

2025 eBPF Network Analysis System

Network traffic classification for QUIC protocols, inspecting encrypted flows at the kernel boundary using eBPF with C, Rust and Python.

github.com/mihaicristianfarcas/ebpf-network-analysis-system

2025 nvim-search-and-replace

Project-wide search and replace plugin for Neovim written in Lua: async streaming ripgrep search, live before/after preview, selective replacement and its own undo/redo stack.

github.com/mihaicristianfarcas/nvim-search-and-replace

PERSONAL SKILLS

Mother tongue Romanian

Other languages

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C2	C2	C2	C2	C2

C2 Certificate of Proficiency in English (Cambridge English Assessment)

Levels: A1 and A2: Basic user – B1 and B2: Independent user – C1 and C2: Proficient user

[Common European Framework of Reference for Languages](https://www.cambridgeenglish.org/exams/certificate-of-proficiency/)

Digital skills

- Programming languages: Rust, Go, Python, Swift, C/C++, Java, TypeScript/JavaScript, Lua, Shell
- Technologies and tools: React, Next.js, Astro, Tailwind CSS, FastAPI, PyTorch, LangChain, Qdrant, FAISS, PostgreSQL, eBPF, Metal, Git, Neovim, Cloudflare Workers

ADDITIONAL INFORMATION

Honours and awards

Honorable mentions in multiple mathematical logic and computational thinking contests (e.g. BEBRAS).
