Date of birth 5 April 2004 | Nationality Romanian

WORK EXPERIENCE

2026 – Present

Software Engineer (Freelance), BluePlan

Built and shipped Atlas (ai.blueplan.ro) end to end: retrieval-augmented chat over technical documents with hybrid dense, sparse and image retrieval fused with RRF, reranking and verbatim citations pinned to the source PDF. Multi-tenant, multilingual and in daily production use.

Technologies Python, FastAPI, Qdrant, React

2026 Full-Stack Developer, Baseline Studios

Delivered full-stack features across multiple client applications (stratosphere.vip, pursuitofx.org, kabu.xyz, esoftplus-landing.vercel.app) using TypeScript and React.

Technologies TypeScript, React

2025 Software Developer, GeoDraw

Developed an AI-powered canvas for sketching and wireframing apps with React, TLDraw and LLM APIs, turning natural language into accurate real-time design output on the canvas.

Technologies React, TLDraw, LLM APIs

April – June 2025

Software Development Intern, Tvarita

Rebuilt and redesigned a server monitoring site for an optician clinic chain using React and Tailwind CSS, improving the user experience and significantly reducing load times.

Technologies React, Tailwind CSS

EDUCATION AND TRAINING

2026 – Present

MSc in Cloud, Network Infrastructure and High-Performance Computation

Babeș-Bolyai University, Faculty of Mathematics and Computer Science, Cluj-Napoca, Romania

Oct 2023 – June 2026

BSc in Computer Science (English)

Babeș-Bolyai University, Faculty of Mathematics and Computer Science, Cluj-Napoca, Romania

Thesis: Hybrid post-quantum key exchange for WireGuard, the first FIPS 203-compliant hybrid WireGuard implementation on a production Rust codebase.

PERSONAL PROJECTS

2026

pq-boringtun

Hybrid post-quantum key exchange for WireGuard: ML-KEM-768 alongside X25519 in the Noise IK handshake, built in Rust on Cloudflare's BoringTun and benchmarked on Apple M4 and Raspberry Pi 5.

github.com/mihaicristianfarcas/pq-boringtun

Technologies Rust, ML-KEM-768, X25519, Noise Protocol, WireGuard

2026 Supernova

Live-wallpaper engine for macOS in Swift 6: renders looping video, Shadertoy-style GLSL shaders transpiled to Metal and sandboxed web bundles behind desktop icons, with audio, cursor and motion reactivity, per-display assignment and smart playlists.
supernova-macos.app

Technologies Swift 6, Metal, Core Audio, GLSL

2026 mihaicristian.dev

Personal portfolio site built with Astro: project showcases, long-form writing and a performance-focused SPA-style browsing experience.
mihaicristian.dev

Technologies Astro, TypeScript

2025 eBPF Network Analysis System

Network traffic classification for QUIC protocols, inspecting encrypted flows at the kernel boundary using eBPF with C, Rust and Python.

github.com/mihaicristianfarcas/ebpf-network-analysis-system

Technologies C, Rust, Python, eBPF

2025 nvim-search-and-replace

Project-wide search and replace plugin for Neovim written in Lua: async streaming ripgrep search, live before/after preview, selective replacement and its own undo/redo stack.

github.com/mihaicristianfarcas/nvim-search-and-replace

Technologies Lua, Neovim, ripgrep

PERSONAL SKILLS

Mother tongue Romanian

Other languages

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C2	C2	C2	C2	C2
C2 Certificate of Proficiency in English (Cambridge English Assessment)					

Levels: A1 and A2: Basic user – B1 and B2: Independent user – C1 and C2: Proficient user
[Common European Framework of Reference for Languages](https://www.cambridgeenglish.org/exams/certificate-of-proficiency/)

Digital skills

- Programming languages: Rust, Go, Python, Swift, C/C++, Java, TypeScript/JavaScript, Lua, Shell
- Web development: React, Next.js, Astro, Tailwind CSS, TLDraw, Vercel, Cloudflare Workers
- Backend, databases and ML: FastAPI, PostgreSQL, Qdrant, FAISS, LangChain, PyTorch, LLM APIs
- Systems, networking and security: eBPF, WireGuard and the Noise protocol, ML-KEM post-quantum key exchange, Metal, Core Audio, GLSL shaders
- Tools: Git, Neovim, ripgrep, Linux, macOS
